## **When are 1 July Club and District Membership Start Figures Calculated?**

14 July 2008 - Start Figures are the confirmed report of the number of clubs and members in every club for each district at 1 July. The Start Figures are based on July semi-annual reports submitted by 30 September. Thus the "Start Figures" cannot be calculated until mid-October when our Data Services staff has had ample time to make all of the membership changes RI received by 30 September to club rosters.
